FAX-1560

For quick, easy-to-use faxing and copying you need one of the new range of plain paper fax machines from Brother. The FAX-1360, FAX-1460 and FAX-1560 are designed to save you time by making home office tasks easier, quicker and more convenient.

FAX-1360

- 14,400bps fax modem speed
- Integrated telephone handset
- Up to 20 page Automatic Document Feeder
- 10 one-touch dials and 100 speed dials
- Up to 100 sheet paper capacity

FAX-1460

as above plus:

- Telephone Answering Machine
- Up to 29 minutes recording time

FAX-1560

as above plus:

- Stylish DECT handset
- Speakerphone
- Memory security

The mono **fax capability** guarantees fast, cost effective communication and means that you only need a single black pigment* ink cartridge, for crisp text - keeping running costs to a minimum.

For quick and easy access to your most regular contacts, each machine has **100 speed dials**.

They also have a **250-page memory** that will store incoming faxes should you run out of paper, reducing the risk of losing important information.

All three machines have the capability to act as a convenient **mono copier**, which means you won't need a separate photocopier. Having all the enlargement and reduction functions you'd expect from a standalone copier, they'll save you precious office space and money.

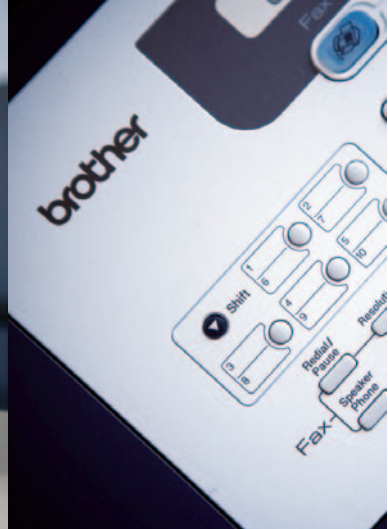

The FAX-1360 and FAX-1460 come with **integrated handsets** allowing you to make calls as you would from any standard telephone, so there's no need for additional telephone equipment.

The FAX-1460 also has an **integrated telephone answering machine** meaning you won't miss any important calls.

*pigment ink gives crisp text and fine lines

FAX-1360

The DECT (Digital Electronic Cordless Telephone) handset on the FAX-1560 gives you the flexibility to use the phone whilst you're away from your desk. For added convenience there's also a **duplex speakerphone** on the FAX-1560 for two-way hands-free conversations.

The Fax-1560 also allows you to connect 3 other GAP** compatible DECT phones to create a DECT telephone network.

**GAP (General Access Protocol)

Each machine has **fax forwarding** which lets you forward any faxes you receive to another machine, and **remote retrieval** means you can check and retrieve your fax messages simply by using another touch tone fax machine – great for when you're away from the office for a period of time.

Technical Specifications FAX-1360

General	
Engine	Monochrome Inkjet
Telephone Handset	Supplied with telephone handset
LCD Display	1 line x 16 characters
Memory Capacity	16MB
Paper Handling Size	A4, LTR, LGL
Paper Capacity	Standard paper tray: Up to 100 sheets Automatic Document Feeder: Up to 20 sheets Output paper capacity: Up to 50 sheets
