

Epson SureColor SC-T3000/T5000/T7000

The Epson SureColor SC-T7000, SC-T5000 and SC-T3000 offer fast, reliable printing on coated and non-coated media up to 44-inch (1118mm, A0+ size), 36-inch (914mm, A0 size) and 24-inch (610mm, A1 size) wide respectively. Designed to fit seamlessly into the office environment, the printers feature sleek styling, small footprints and low noise levels, and are operated from the front to allow convenient placement against a wall.

These 4-colour printers are ideal for applications where speed and economy are paramount, such as printing architectural designs and plans, maps, presentations, posters and indoor signage. All three printers take just 28 seconds to produce an A1 print in draft mode on plain paper, and offer optimised running costs with a choice of 700ml, 350ml and 110ml ink cartridge sizes.

Further improving efficiency, the printers are quick to set up, with automatic photo and matte black ink switching, and are so easy to use that operators do not need special training. All controls are at the front of the printers, while media is fed in at the top. The finished prints emerge at the front, stacking neatly into a basket. Tracking how much paper is left on a roll is simple thanks to media barcode printing.

The SC-T7000, SC-T5000 and SC-T3000 are straightforward to install, too, with an HP-GL emulation mode to ensure they fit easily into most production environments.

The printers use Epson UltraChrome XD Ink, which is specifically developed to produce high-quality, durable prints with deep blacks, a wide colour gamut and crisp, dense lines with a minimum width of 0.02mm. Epson's Variable-size Droplet Technology brings clarity to fine detail while delivering optimum efficiency for larger areas of colour. Helping to reduce impact on the environment, the SC-T7000, SC-T5000 and SC-T3000 use water-based inks and are qualified by ENERGY STAR for their excellent power efficiency.

DATASHEET

KEY FEATURES

- Fast, reliable, economical 4-colour printer
- Designed to fit into an office environment, with sleek styling, small footprint, low noise levels and front operation
- Ideal for producing architectural designs and plans, maps, presentations, posters and indoor signage
- Optimised running costs with a choice of cartridge sizes: 700ml, 350ml and 110ml
- Takes 28 seconds to produce an A1 print in draft mode on plain paper
- MicroPiezo® TFP Permanent lifetime printhead

PRODUCT SPECIFICATIONS

	SC-T3000	SC-T5000	SC-T7000
PRINTING TECHNOLOGY Printhead Nozzles		MicroPiezo Advanced TFP 720 nozzles x 5 lines
