

# Xerox DocuMate® 765

## Exceptional Production Scanning for any Document Environment

- 65 ppm Simplex and 110 ipm Duplex\*
- Includes Kofax VRS Professional (Workgroup/AIPE/EBC)
- Ultrasonic Double Feed Detection
- Daily Duty Cycle – 10,000 pages
- Detailed LCD Display
- Visioneer OneTouch scanning to multiple applications including Microsoft SharePoint
- 175 pages ADF capacity\*\*
- Imprinter Option Available

### Xerox DocuMate 765

With the DocuMate 765 you can increase productivity and reduce the total cost of scanning, all at an affordable price. The DocuMate 765 production scanner offers a powerful combination of image quality, 10,000 page daily duty cycle and 65 pages per minute scanning speed in portrait. It has the ability to scan a wide range of document sizes and supports long document scanning up to 864 mm. Powered by Visioneer OneTouch scanning technology the DocuMate 765 simplifies scan jobs and workflows by eliminating the multiple steps usually required to save scanned documents in popular file formats, including searchable PDFs. It can then send them direct to industry-leading ECM applications including Microsoft SharePoint, DocuWare and Xerox DocuShare (among others) and also to devices such as printers and storage systems in just one touch.

### Powerful Technology

This best-in-class scanning technology and feature set, including Visioneer OneTouch, Kofax VRS Professional AIPE-EBC, Ultrasonic Double Feed Detection and Advanced Colour Dropout, make the DocuMate 765 an attractive option for service bureaus, busy office environments that handle a wide variety of documents and businesses with exceptional document scanning requirements. Whatever your scanning needs, the DocuMate 765 helps you get it done faster and more efficiently.

### Superb Image Quality

Ensuring that your images are of the best quality possible at the point of capture is critical to the rest of the document management workflow. The DocuMate 765 provides both high quality image enhancement and increased productivity with Kofax VRS Professional AIPE-EBC for auto-everything scanning – including Auto Rotation, Blank Page Deletion and Auto Colour Detect. Kofax VRS Professional improves your workflow and reduces the total time needed to scan even the largest volumes of mixed batch documents. This combination translates into real and measureable savings – fewer manual steps, reduced storage requirements and less operator intervention. Also great image quality significantly impacts the success of data extraction, recognition and retrieval.

\* 200 dpi black & white portrait orientation \*\* 75 g/m<sup>2</sup> paper

## Visioneer OneTouch

Visioneer OneTouch is an easy to use utility that connects the DocuMate scanner with a powerful set of scanner settings to greatly improve the efficiency of your workflow – so that with one touch, the document is scanned automatically to email, Word, your printer, or simply a file folder.

In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the DocuMate 765 with industry-leading document management software, such as Microsoft SharePoint, DocuWare and Xerox DocuShare – forming an easy to use workflow from paper to a selected destination. A Software Development Kit (SDK) is also available which provides the ability to develop specific links and integrate them into the Visioneer OneTouch control panel quickly and easily.

## Kofax VRS Professional

**AIPE (Adrenaline Image Processing Engine)**  
AIPE is a Kofax software product that adds a range of functions to your ImageControls scan application. It includes the Enhanced Bar Code engine and Patch Code detection, which supports any image type (bitonal, greyscale or colour). For Bitonal image processing, AIPE provides On-the-Fly Rotation, Line Removal and a range of Image Enhancement Filters.

### Auto Rotation

Electronically rotates the image so that it can be read right side up by the scanner operator.

### Auto Colour Detect

Eliminates the pre-sorting of batched documents and the inserting of patch codes and separator sheets previously needed to capture colour content.

### Blank Page Deletion

Eliminates blank pages when scanned in duplex – reducing files sizes and storage requirements. It also reduces document preparation, as you can put both simplex and duplex documents in the same batch.

Kofax VRS Professional improves your workflow and reduces the total time needed to scan even the largest volumes of mixed batch documents.

## Ultrasonic Double Feed Detection

Ultrasonic multifeed uses sound waves to detect if there are multiple documents going through the scanner at the same time and intelligently recognises holes punched into a document – assuring that all documents get scanned.

### Auto Resolve

If a multifeed is detected the scanner prevents the image from being sent to the scanning application – it is then immediately re-scanned without losing its place in the image batch.

### Multifeed Ignore

The scanner can be set up to allow an intended multifeed document such as envelopes, documents with sticky notes or photographs, to be successfully scanned – allowing you to capture all information in and on the document without extra document preparation.

## User Utility Feature

The DocuMate 765's smart design includes a User Utility Feature which helps to reduce the level of service calls and extend the life of the scanner by enabling the scanner to be maintained by the user. The scanner operator can track the total number of scans, the software version and cleaning schedule – it can also help extend the life of the scanner by tracking preventative maintenance activities. If there is an issue, the User Utility can help diagnose it and by providing instant scanner status, time to resolution is often shortened – keeping the scanner operating at a peak capacity.

## Imprinter Option

The DocuMate 765 has an optional, user installable pre-scan, front-page Imprinter, which allows the user to print a user-defined text 'string' upon the front side of your documents on a 'pre-scan' basis. These strings can be used to include information about when and who scanned the document or any other relevant details about the document.

## DocuMate 765 Product Specifications

Xerox Part No.	003R98776
Scan Speed	
– Black & White, 200 dpi	65 ppm simplex / 110 ipm duplex
– Colour, 150 dpi	65 ppm simplex / 110 ipm duplex
Optical Resolution	600 dpi
Output Bit Depth	24-bit colour, 8-bit greyscale, 1-bit black & white
Scan Method	Fast Duplex ADF
Interface	Hi-Speed USB 2.0 (USB 1.1 Compatible)
Dimensions not including paper trays (width x depth x height)	480 x 440 x 290 mm (18.9" x 17.3" x 11.4")
Weight (not including paper trays)	20.2 Kg (44.5 lbs)
ADF Maximum Document Size	297 x 864 mm (11.7" x 34")
ADF Minimum Document Size	51 x 89 mm (2" x 3.5")
ADF Capacity	175 sheets (75 g/m <sup>2</sup> / 20 lb)
Duty Cycle	10,000 pages/day
Imprinter Option Model Number	765IMP-KIT

## Minimum System Requirements

- Pentium IV or equivalent processor
- Windows® 2000, XP, 32-bit or 64-bit Vista
- 512MB RAM (1GB for Vista)
- 500MB free hard disk space
- DVD-ROM drive
- USB 2.0 port

## Contents

- DocuMate 765 Scanner
- USB 2.0 Cable
- Power Supply
- Quick Install Card
- Technical Support Card
- Scanner Accessory Pack
- Installation DVD-ROM including:
  - User Manual
  - Visioneer OneTouch
  - Kofax VRS Professional AIPE/EBC
  - Nuance OmniPage Pro
  - Scanner Drivers (TWAIN, ISIS & WIA)
